result.
- Be creative for an
even more unique
finish

Instructions

Tie a knot in one end of thread leaving a one inch tail. Insert needle under one strand of lace of braided choker one inch from finding along outside of choker. Knot thread around strand of lacing by passing needle under strand and passing needle back through loop formed by thread, repeat. Secure thread tail down as you proceed.

Thread one crystal, one pearl and another crystal on to needle. Place needle and thread under lacing strand half inch down and towards inside of choker. Run thread through lacings about an inch, pass thread through an outside strand of lace about one inch from previous set of beads. Thread one crystal, one pearl and one crystal and run needle and thread down through lacing half inch down and toward inside to hide and repeat. Place 9 sets of beads approximately one inch apart, hiding the thread by weaving under strands of lace. After finishing the last set of beads knot the thread by passing under lace and passing the needle through the loop that was formed. Repeat

Beads should form a wrapping affect around choker.

Jewelry pliers may be needed to pull needle under leather strands.
